My Lord

Accept my thanks for your
note with the Resolution of
the Board relative to my duty
in this country. It shall be, as
it ever has been, my constant
endeavour to deserve the Con
fidence thus so generously repo
sed in me.

You are right in sup
posing us all disposed on this
side the water, to part good
terms with George Thompson.
He surely holds us higher in
his esteem as Abolitionists,
than any others. & his present
unfortunate Condition as an
editor, probably will not last
long, & then there is no doubt
where he will wish to be.
But I fear he will never
regain the high place in the
Estimation of British Abolitionists
he has held in time past.

so far as he can learn,
Miss Julia Smith is Headway
in Scotland - She visited no
place but Glasgow & I think
did very little there - In Dub-
lin we hear she was more
successful - but I have not
any of her in any other part
of Ireland. It is very doubtful
whether her Foreign tour in
mortalizes either herself or
Douglass.

I had a good Meeting in
Paisley, the Lord Provost
in the Chair - Mr Brewster
promised to send the Reso-
lutions adopted, to the Liberator.
He is true as steel & thinks no
men in America deserve
better than Garrison and
H.C. Wright - But he adores
Rossuth as almost Divine -
By the way, Mr Armistead de-
clines sending me the Letter
of the great Hungarian, to Wh.

I reflected taken writing to you
sometime since - I do not
wonder, for it was a desperate
exsuption - I hope you may at
some time get sight of it,
through Miss Cotton.

My labors in Scotland
are now probably at an end -
Our friends here think they
will not be without desirable
effects - The newspapers
will tell you their story.

I am going to Newcastle
on Tyne from here, calling
on some friends for a day or
two, at Jedburgh - This will
enable me to see once more,
Melrose & its vicinity - I have
some sections & others be-
fore me, probably
as many as will be best
for My state of health in the
"long run" - The cool weath-
er is now becoming more
steady, & I am getting accli

mated so as to hear it very
well, & hope to continue to
give some good account
of myself as the weeks go on.

In the Bazaar boxes, are
a few pencils directed to Mrs.
Pillsbury &c. Mostly I believe
to your care - I will write her
to arrange with Mr. Wyatt our
excellent Ex. Agent, to take them
at your hand.

Will you ask Mr. Wallcut
to send the Liberator to James Tur-
ny of this City - He has sent some
pictures to Mr. Garrison & wishes
Mr. Garrison's Daguerotype in
return - Will you please say that
the risk is a reasonable one
from a very worthy man.

I Congratulate you all on
Mrs. Chapman's return - She
seems in good health & spirit.
And with My truest regards to you
& yours, & all who enquire, be
lieve me as Ever -

Most devotedly Yours -
Parker Pillsbury.
